🏠 PROJECTS

WISE project - MESSAGE DECODING

6 Feb 2023 - 10 Feb 2023

In my first project of WISE program based on python programming , my team and me didn't have knowledge on python .I stood as team leader and I was tasked on fundamentals of python needed for MESSAGE DECODING with reference links took 4 days .However we completed the project a day in advance and felt proud and excelled .The whole experience taught me how to effectively manage and prioritize my time.

MAJOR PROJECT -TINDER CLONE USING HTML AND CSS

26 Feb 2023

I joined for virtual bootcamp of html and css of Tinder Clone by Devtown . I learned few concepts related to project there I developed and uploaded in linkedin and guthub .

24 Hours APPATHON- E-PAGE TURNERS

1 April 2023 - 2 April 2023

Before conducting this appathon , my college provided 2 day Bootcamp on Android App Development . On this 1 day I stood as team leader . My team and me worked on app front design within a day we hadn't done but my team persistence makes it complete in 2 days . As well Android App Development is new to us within short period of time we learned and made .
